WORK EXPERIENCE

Tabby **Dubai, UAE**

Cyber Security Lead *March 2023 - Present*

- Developed and implemented security and vulnerability assessment policies for GCP and GitLab environments, ensuring comprehensive coverage and adherence to industry standards.
- Conducted thorough Web/Mobile application pentests, identifying vulnerabilities and providing actionable recommendations for secure application development and deployment.
- Managed Bug Bounty programs, leading efforts to discover and remediate vulnerabilities in coordination with engineering teams within SLA timelines.
- Facilitated PCI-DSS audit activities, implementing technical controls to ensure compliance.
- Integrated security practices into CI/CD workflows on GitLab, leveraging DevSecOps principles for automated security checks and effective findings management.
- Utilized GCP-native security tools (Google Cloud Security Command Center, Binary Authorization, Container Registry scanning) to enhance container security.
- Deployed Wiz Cloud Security Platform for CSPM and Runtime security vulnerability identification.
- Managed Vulnerability Management Solution using DefectDojo, integrating it into DevSecOps pipelines.
- Developed and executed security incident response procedures using Elastic SIEM and N8N SOAR automations, enabling timely detection, investigation, and remediation of security incidents.
- Wrote custom Python scripts to automate tasks, improving operational efficiency and reducing time spent on repetitive tasks.
- Implemented secure container image scanning and vulnerability management using tools like Trivy and Clair to detect and mitigate vulnerabilities in container images.
- Implemented Mobile Device Management (ManageEngine) and Endpoint Security Solutions (SentinelOne) for enhanced security controls.
- Mentored junior team members, promoting professional growth and development.

GudangAda **Remote, Pakistan**

Application Security Engineer *March 2022 - March 2023*

- Spearheaded the development of internal security policies, ensuring comprehensive coverage and adherence to industry best practices.
- Conducted rigorous Web/Mobile application pentests, identifying vulnerabilities and providing actionable recommendations for remediation.
- Implemented DevSecOps practices within CI/CD workflows, integrating security throughout the development lifecycle and managing findings to closure.
- Conducted thorough source code reviews, leveraging expertise in identifying security weaknesses and suggesting code-level improvements.
- Utilized Open-Source DAST, SAST, SCA, and vulnerability management solutions to enhance application security.
- Established and managed SLAs for vulnerability management, prioritizing critical security issues, and collaborating with engineering teams for timely remediation.
- Developed automation scripts (Python, Ruby, Bash) for routine security tasks, enhancing efficiency and accuracy in vulnerability assessments and remediation processes.
- Led application security efforts, orchestrating comprehensive security measures to safeguard critical assets.
- Leveraged application logs to create rules and alerts for timely detection and response to security incidents.
- Implemented effective firewall rules to bolster security measures, minimizing the risk of unauthorized access and potential threats.
- Employed Wazuh SIEM for monitoring cloud and on-premises infrastructure, enabling proactive threat detection and incident response capabilities.

GRC360 **Islamabad, Pakistan**

Senior Cyber Security Consultant *Sep 2020 - March 2022*

- Conducted penetration tests for complex mobile applications on iOS and Android platforms, utilizing advanced techniques such as Frida.

- Conducted numerous successful Web and Mobile application penetration tests, identifying vulnerabilities and providing actionable recommendations for enhanced security.
- Collaborated with AWS architects and security professionals, acquiring extensive knowledge of AWS cloud services and best practices.
- Conducted AWS cloud assessments, ensuring security and compliance of cloud-based systems.
- Executed penetration testing activities within bank and enterprise networks, uncovering potential vulnerabilities and suggesting effective mitigation strategies.
- Specialized in conducting penetration tests in hardened Active Directory (AD) environments, evaluating security posture and recommending improvements.
- Led segmentation and penetration testing initiatives for banks to ensure compliance with PCI-DSS requirements.

Tranchulas **Islamabad, Pakistan**

Information Security Consultant *Feb 2018 - Sep 2020*

- Conducted penetration tests for internal networks and cloud environments for various clients, including financial institutions.
- Configured and implemented Open-Source SIEM systems for Blue Teaming, enhancing incident detection and response capabilities.
- Delivered training sessions on Web Application and Infrastructure Pentesting, providing comprehensive and practical knowledge to participants.
- Demonstrated expertise in creating and managing cloud training labs and VPN servers, enabling hands-on learning experiences for aspiring professionals.

SKILLS

- **DevSecOps:** CI/CD, GitLab, GitHub Actions, Terraform, Ansible, Cloud Security (GCP, AWS), Kubernetes, Wiz.
- **Application Security:** SAST, DAST, SCA, Bug Bounty, Secure Coding Practices, Container Security (GKE).
- **SIEM & SOAR:** Elastic SIEM, Wazuh SIEM, N8N SOAR, Python scripting for automation.
- **Bug Bounty Programs:** Managed and participated in Bug Bounty programs, leading efforts to discover and remediate security vulnerabilities in web and mobile applications.
- **Cloud Security:** GCP Security, AWS Security, CSPM, Container Security, Wiz.
- **Endpoint Security:** SentinelOne, ManageEngine, JamfPro, JamfProtect.

EDUCATION

BS Computer Science - NUML Jan 2021

CERTIFICATIONS

Certified Threat Modeling Professional (CTMP)	Jul 2026
Offensive Security Certified Professional (OSCP)	Nov 2025
Certified Kubernetes Administrator (CKA)	Oct 2024
Certified DevSecOps Professional (CDP)	Nov 2023
Certified Network Security Practitioner (CNSP)	Nov 2023
API Penetration Testing	Jul 2023
Certified Mobile Pentester (CMPen) - Android	Jun 2023
Certified AppSec Pentester (CAPen)	May 2023
Certified Cloud Security Practitioner - AWS (CCSP-AWS)	Apr 2023
Certified AppSec Practitioner (CAP)	Jan 2023
ICSI | CyberSecurity Essentials	Nov 2020
Certified Web Application Security Professional	May 2019
Certified Penetration Testing Professional	Aug 2018
